All States Materials Group Continues “Paving the Way Forward” with UMass Athletics

Amherst, MA – All States Materials Group® (ASMG) has announced its continued support of local youth organizations and UMass Athletics again this year through the “*Paving the Way Forward*” program. This program, which provides 20 complimentary tickets to each UMass Men’s Basketball and Ice Hockey home game, was started to help provide opportunities for local youths from across Western Mass.

In addition to the programs at the Men’s Basketball and Ice Hockey games, ASMG will also continue to support the annual “Paving the Way to a Better Future” youth field trip day. This event provides 25-30 Western Massachusetts elementary and middle schools with the opportunity to attend a UMass Women’s Basketball game complimentary. As part of the event, each student receives a free game ticket, informational guide including UMass Women’s Basketball team player stories, basics of basketball, fun quizzes and games, healthy eating tips, and great ways to get some physical activity.

“We are pleased to be able to continue to support these great opportunities for local youth organizations from across Western Mass,” said Seth Hankowski, Vice President at ASMG. “These programs allow ASMG to give back to the communities we live and work in on a daily basis while also supporting and promoting the great athletic programs at UMass.”

Local organizations interested in finding out more about the programs can contact Nelligan Sports Marketing at UMass Amherst at 413-545-3574 for more information.

About All States Materials Group

All States Materials Group®, is a family of companies headquartered in Sunderland, Massachusetts. The ASMG companies have over 50 years of experience in the heavy/highway construction industry. Their capabilities range from contracting to materials supply. With operations located throughout the Northeast, they provide a diverse range of services from road maintenance and construction to bridge rehabilitation. Among the products offered are aggregates, bituminous concrete, and a full range of liquid asphalts. For more information call 800.343.9620 or go to www.asmg.com.
