

Ultimate Dust Control Performance

ZycoBond is a UV stable dust control palliative that offers long-term dust control for unpaved roads, gravel roads, county roads, open-pit mines, and industrial construction sites.

ZycoBond is designed to be spray applied via simple dilution in water and functions to simultaneously capture dust and waterproof the sprayed surface. ZycoBond facilitates a chemical bond between soil particles and is designed to also be utilized in combination with TerraSil.

Application

Time of Spray/Frequency	Diluted ratio Zycobond:Water	Time Duration	Application Areas
Spray to capture existing dust & fines	1:100	1st week	Dirt roads Gravel roads
Spray to maintain polymer concentration and capture fresh fines	1:200	2nd week onwards	Oprn public grounds Parking lots, etc.

Storage and Shelf Life

Store ZycoBond between 41°F-113°F (5°C-45°C) in shady dry areas away from direct sunlight, heat, spark sources, rain or standing water. Fasten the container lid securely after use. Shelf life is 48 months. Should the product freeze, allow it to thaw before using.

About Zydex

ZycoBond is a product of Zydex Industries. All States Materials Group is a licensed distributor of ZycoBond and other Zydex pavement products. Established in 1997, Zydex is a specialty chemicals company with the purpose of innovating for sustainability. Beyond pavement products, Zydex offers a diverse set of chemical technologies for the textile, agricultural, and civil construction industries.

Sustainable Green Chemistry

Zydex is deeply committed to sustainable chemistries that ensure a greener future for everyone. This commitment has made Zydex a pioneer in introducing non-polluting and non-hazardous technologies that conserve, protect and enhance the environment. Zydex technologies have been recognized by the International Road Federation (IRF) and have been globally adopted.
