

We're excited to announce the launch of ASMGSafety.com, our new platform dedicated to elevating our workplace safety program.

As part of our ongoing commitment to providing a safe and compliant work environment, ASMGSafety.com brings a suite of resources to support every team across our organization.

What is ASMG Safety?

- ASMG Safety is our new centralized safety website that helps streamline our health and safety processes—from incident reporting and training documents to regulatory compliance updates and common forms. The platform is intuitive, mobile-friendly, and built to grow with us.

At All State Materials Group, safety is more than a priority—it's a core value that guides everything we do. Our commitment to protecting the well-being of every employee is reflected in the comprehensive safety resources and tools available on this page. Whether you're on a job site, in a plant, or in the office, we're dedicated to creating a culture where safe practices are second nature and everyone has the support they need to work confidently and responsibly.

Here, you'll find essential safety protocols, training materials, reporting tools, and guidelines to help you stay informed and proactive. These resources are designed not only to meet industry standards but to exceed them—because nothing is more important than your health and safety. Together, we can ensure that *Everyone Goes Home Safely, Every Day!*

Key Features You'll Benefit From:

- **Incident & Inspection Reporting**
 - Universal Incident Report Template – Ability to download, complete, and transmit the PDF form.
- **Document Management**
 - Our new 2025 Health & Safety manual is now centralized and accessible to all teams. Updates to sections will now be made available on ASMGsafety.com.
- **Toolbox Talk Library**
 - Browse the ever-growing list of Toolbox Talk topics that can be printed and submitted to your local Safety Manager.
- **Form Library**
 - Access, print and complete commonly used forms (confined space entry, hot work, harness inspections, etc.)
- **Contact Information**
 - Locate your regional safety rep, general safety email addresses as well as emergency phone numbers.
- **Mobile Access**
 - Whether you're on-site or in the field, ASMG Safety works on mobile devices, so safety is always within reach.
